NOTIFICATION

No. **5759/**

BILASPUR, Dated 08/05/2023

Preamble

The purpose of this protocol is to present guidelines and mandatory recommendations, to improve the response of the justice dispensation system to vulnerable witnesses.

This protocol prescribes guidelines while recording depositions of vulnerable witnesses in order to enable them to give their best evidence in criminal proceedings. Each witness is unique and is to be handled accordingly. The vulnerability of a witness may emerge from a range of circumstances which include, but are not limited to - nature of crime, threats and intimidation, fear of reprisal, age, developmental levels, gender identity, sexual minorities, ethnicity, religious identity, caste, physical and/or mental disability, lack of infrastructural support, language barriers, geographical location etc. Some of the most challenging cases handled by judges during the course of their careers are those involving vulnerable witnesses such as children, victims of sexual offences or domestic violence, persons with disabilities, and witnesses experiencing threats to their life and property, among others. as, what happened to or was witnessed by them, impact significantly on their quality of deposition and potentially outcome of a trial. unless adequate support is provided, a vulnerable witness may not feel safe to provide robust testimony.

Vulnerable witnesses, find the criminal justice system intimidating, particularly the courtroom experience. Under these circumstances, unless adequate support is provided, a vulnerable witness may not feel safe to provide robust testimony. Further, the lengthy process of navigating the formal and adversarial criminal justice system can affect the vulnerable witnesses psychological development and disable this sensitivity in significant and long-lasting ways.

To respond effectively to needs of vulnerable witnesses the criminal justice system needs to respond proactively with sensitivity in an enabling and age appropriate manner, so that the trial process is less traumatic and secondary victimisation can be minimised. Sensitive engagement and suitable modifications of existing procedures (within the framework of the law), while ensuring the rights of the accused or the opposite party, can significantly impact the quality of deposition by vulnerable witnesses and potentially the outcome of a trial.

These Guidelines have been developed in furtherance of the Supreme Court's directions in *Smruti Tukaram Badade v. State of Maharashtra*¹.

Objectives of these Guidelines

1. To enable vulnerable witnesses to depose freely before any court in a safe and secure environment and to elicit and secure complete, accurate and reliable evidence from vulnerable witnesses.
2. To minimize harm or secondary victimization of vulnerable witnesses in anticipation and as a result of participation in the criminal justice system.
3. To ensure that the rights of all the parties in the judicial processes are effectively implemented.
